The problem with the proposed solution is that there are too many one off solutions: You can print a single page, but it in an envelope and mail it. [The first that came to my mind] You can print a single page, scan it and send it in an email. You can put the page on screen (hi-res or low res), take a picture with a digital camera, connect the camera to the computer take the jpg and email.

How to save ONE single page of pdf document - Adobe
